

# Directory of Vermont's Act 62 Prekindergarten Education Programs

Compiled 2009-2010

## Introduction

The Directory of Vermont's Act 62 Prekindergarten Education Programs includes the center-based and family-based child care programs, privately operated and school operated preschools, and Head Start programs that provide publicly funded pre-kindergarten education.

The entries in this directory are based on information collected during the 2009-2010 academic year. According to these data, 3,789 three- and four-year-olds were enrolled in publicly funded pre-kindergarten education. In addition, 1089 children with disabilities between the ages of three and five received Essential Early Education (EEE) services. Many of these children also attended publicly funded prekindergarten programs offered either directly by a school district or through a contract with a private provider or Head Start.

The directory is divided into three sections:

- Privately operated full-time or part-time center-based and family-based programs (includes non-profit and for profit programs)
- Head Start and school district collaborative programs
- Public school operated programs

In addition to contact information, the county in which the program is located, and the towns it serves, information on the quality of the program is provided. One of the requirements for all early childhood programs that offer publicly funded prekindergarten education is that they either be accredited by the National Association for the Education of Young Children (NAEYC), or that they have a minimum of four "STARS" in Vermont's Step Ahead Recognition System. (It is possible for programs with three STARS to offer prekindergarten education if they have a plan for attaining four STARS within three years that has been approved by the Commissioners of Education and the Department for Children and Families.)
